MAKER PROFILE

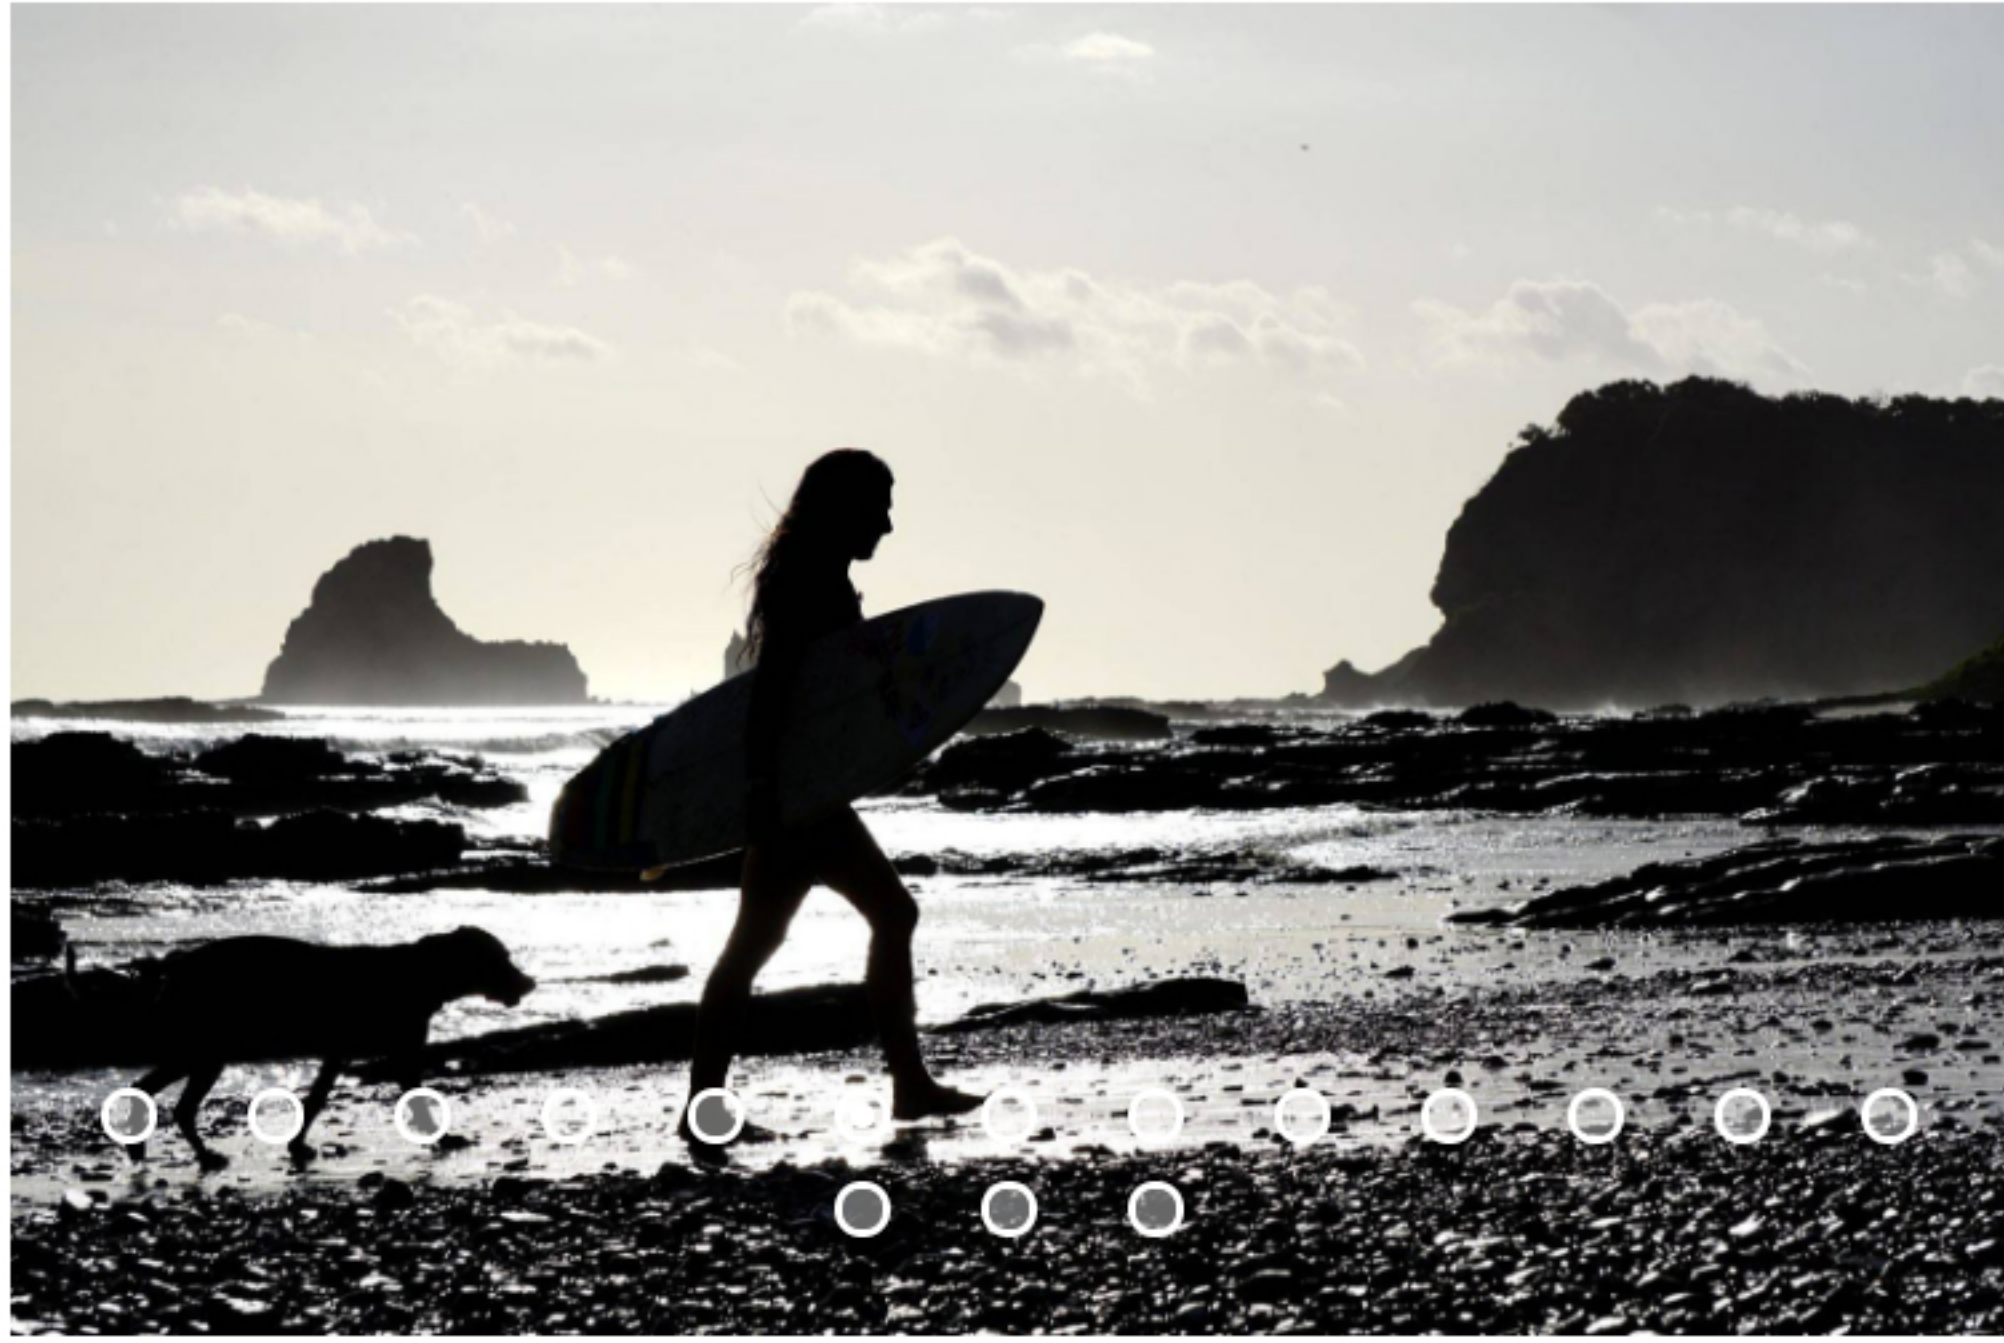

## Among Others

Among Others is Megan Hewitt and Garna Raditya, a dynamic husband-and-wife creative agency, specializing in multimedia design and storytelling. Megan is an artist, creative director, singer, Indonesian social movement writer, teacher and specialist in alternative arts-education. Garna is a celebrated musician, songwriter, artist, graphic designer, photographer and journalist whose work has been featured in Rolling Stone Magazine, among others. Together, they form a creative content operation based in Oakland, California, currently producing documentary films featuring the stories of inspiring people in creative industries.

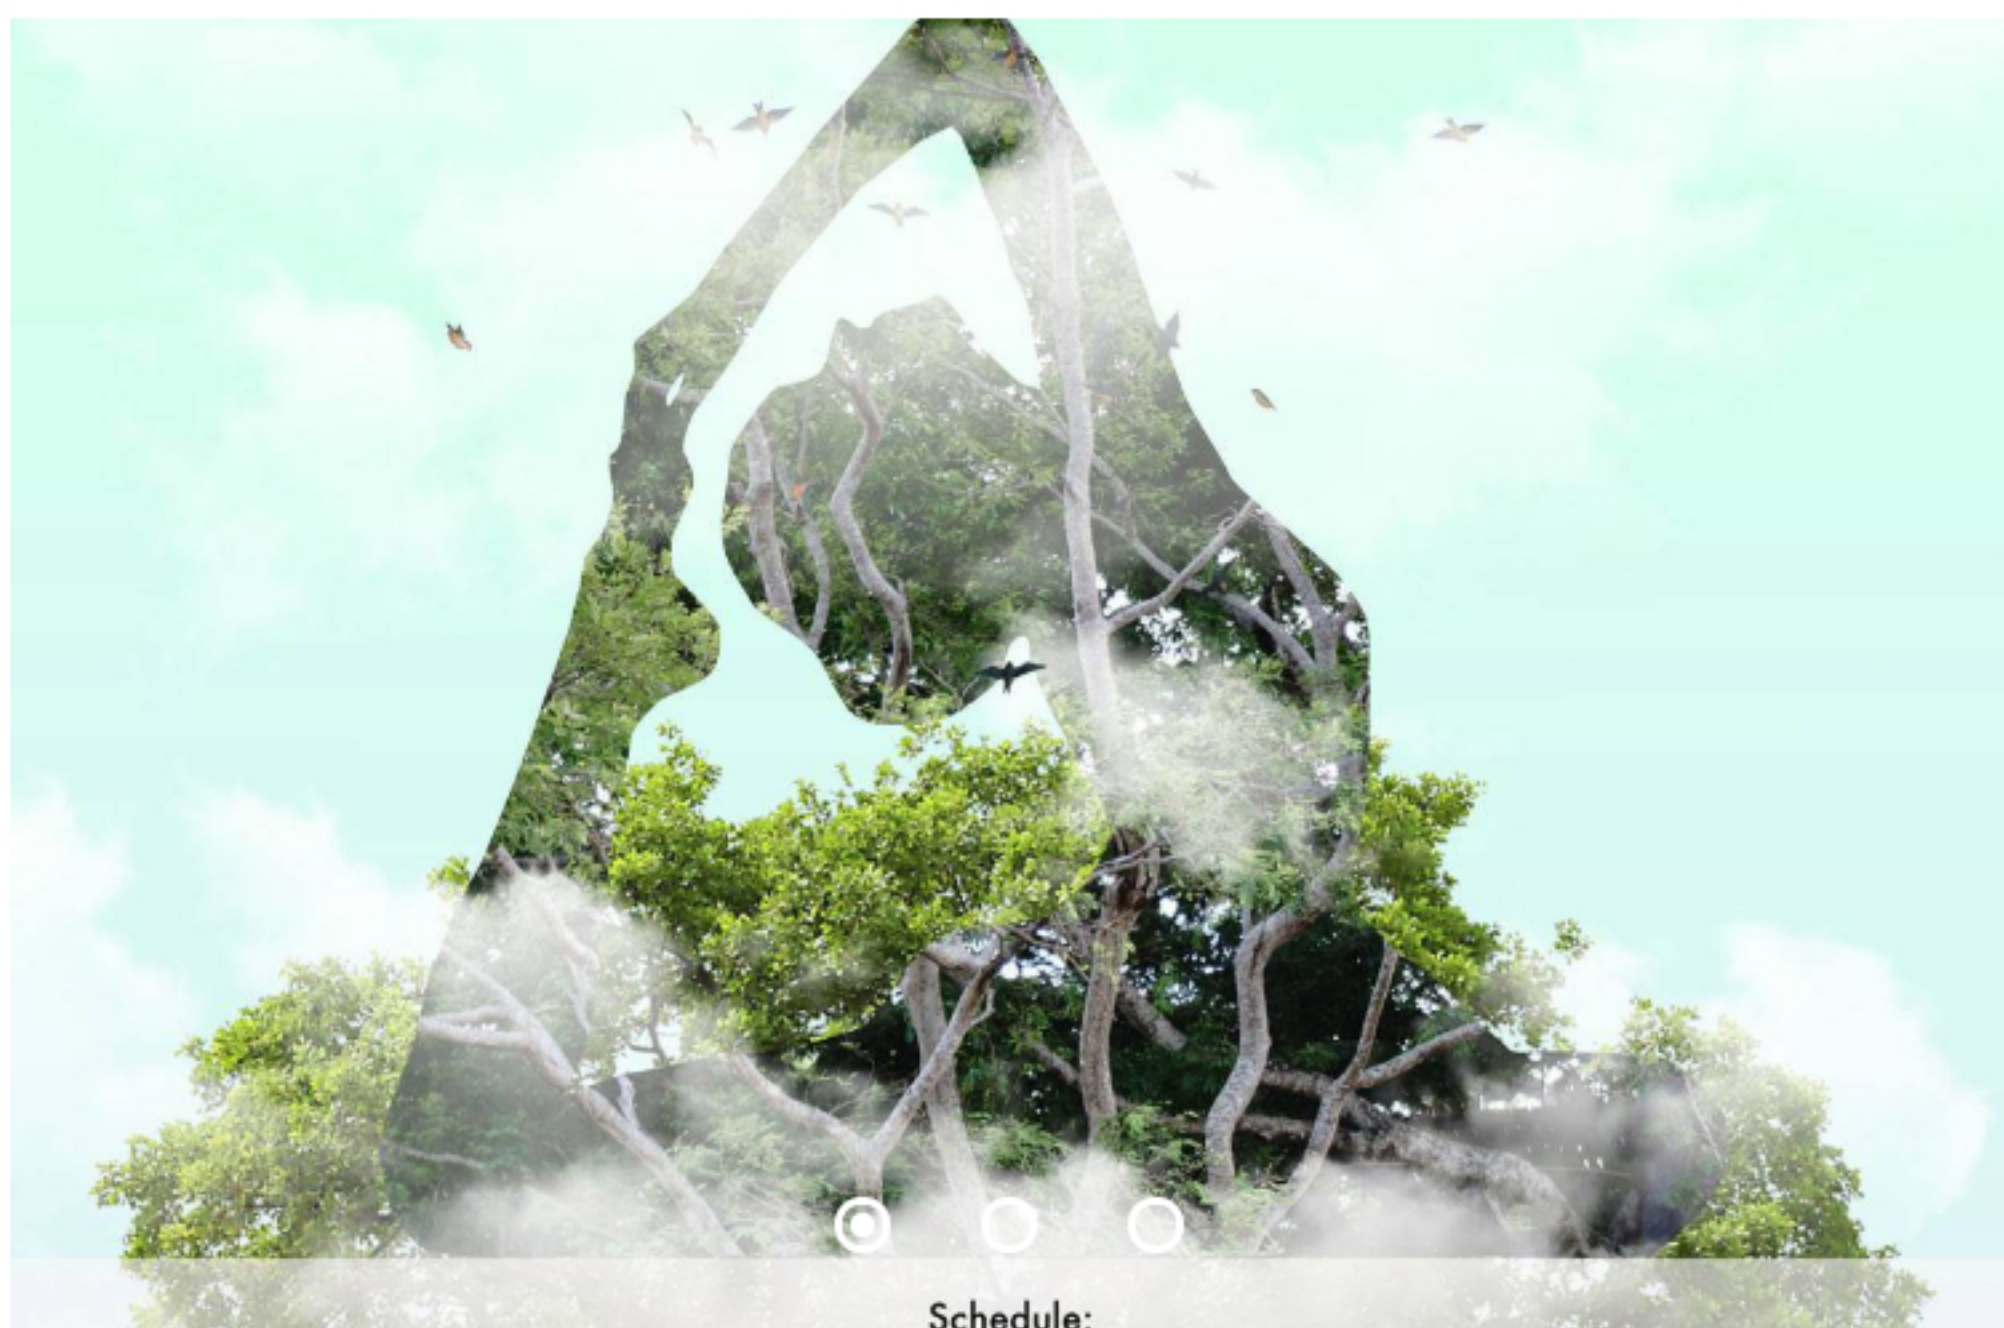

## Stills & Video

Megan and Garna stayed with us in the early days of opening and captured much of that pioneering spirit. They trained their unique lens on the landscape, architecture, events, plants, animals and people. Many of the stunning images featured on our website were indeed captured by them.

## Design

They designed posters to launch special events and partnerships. Here are just a few.

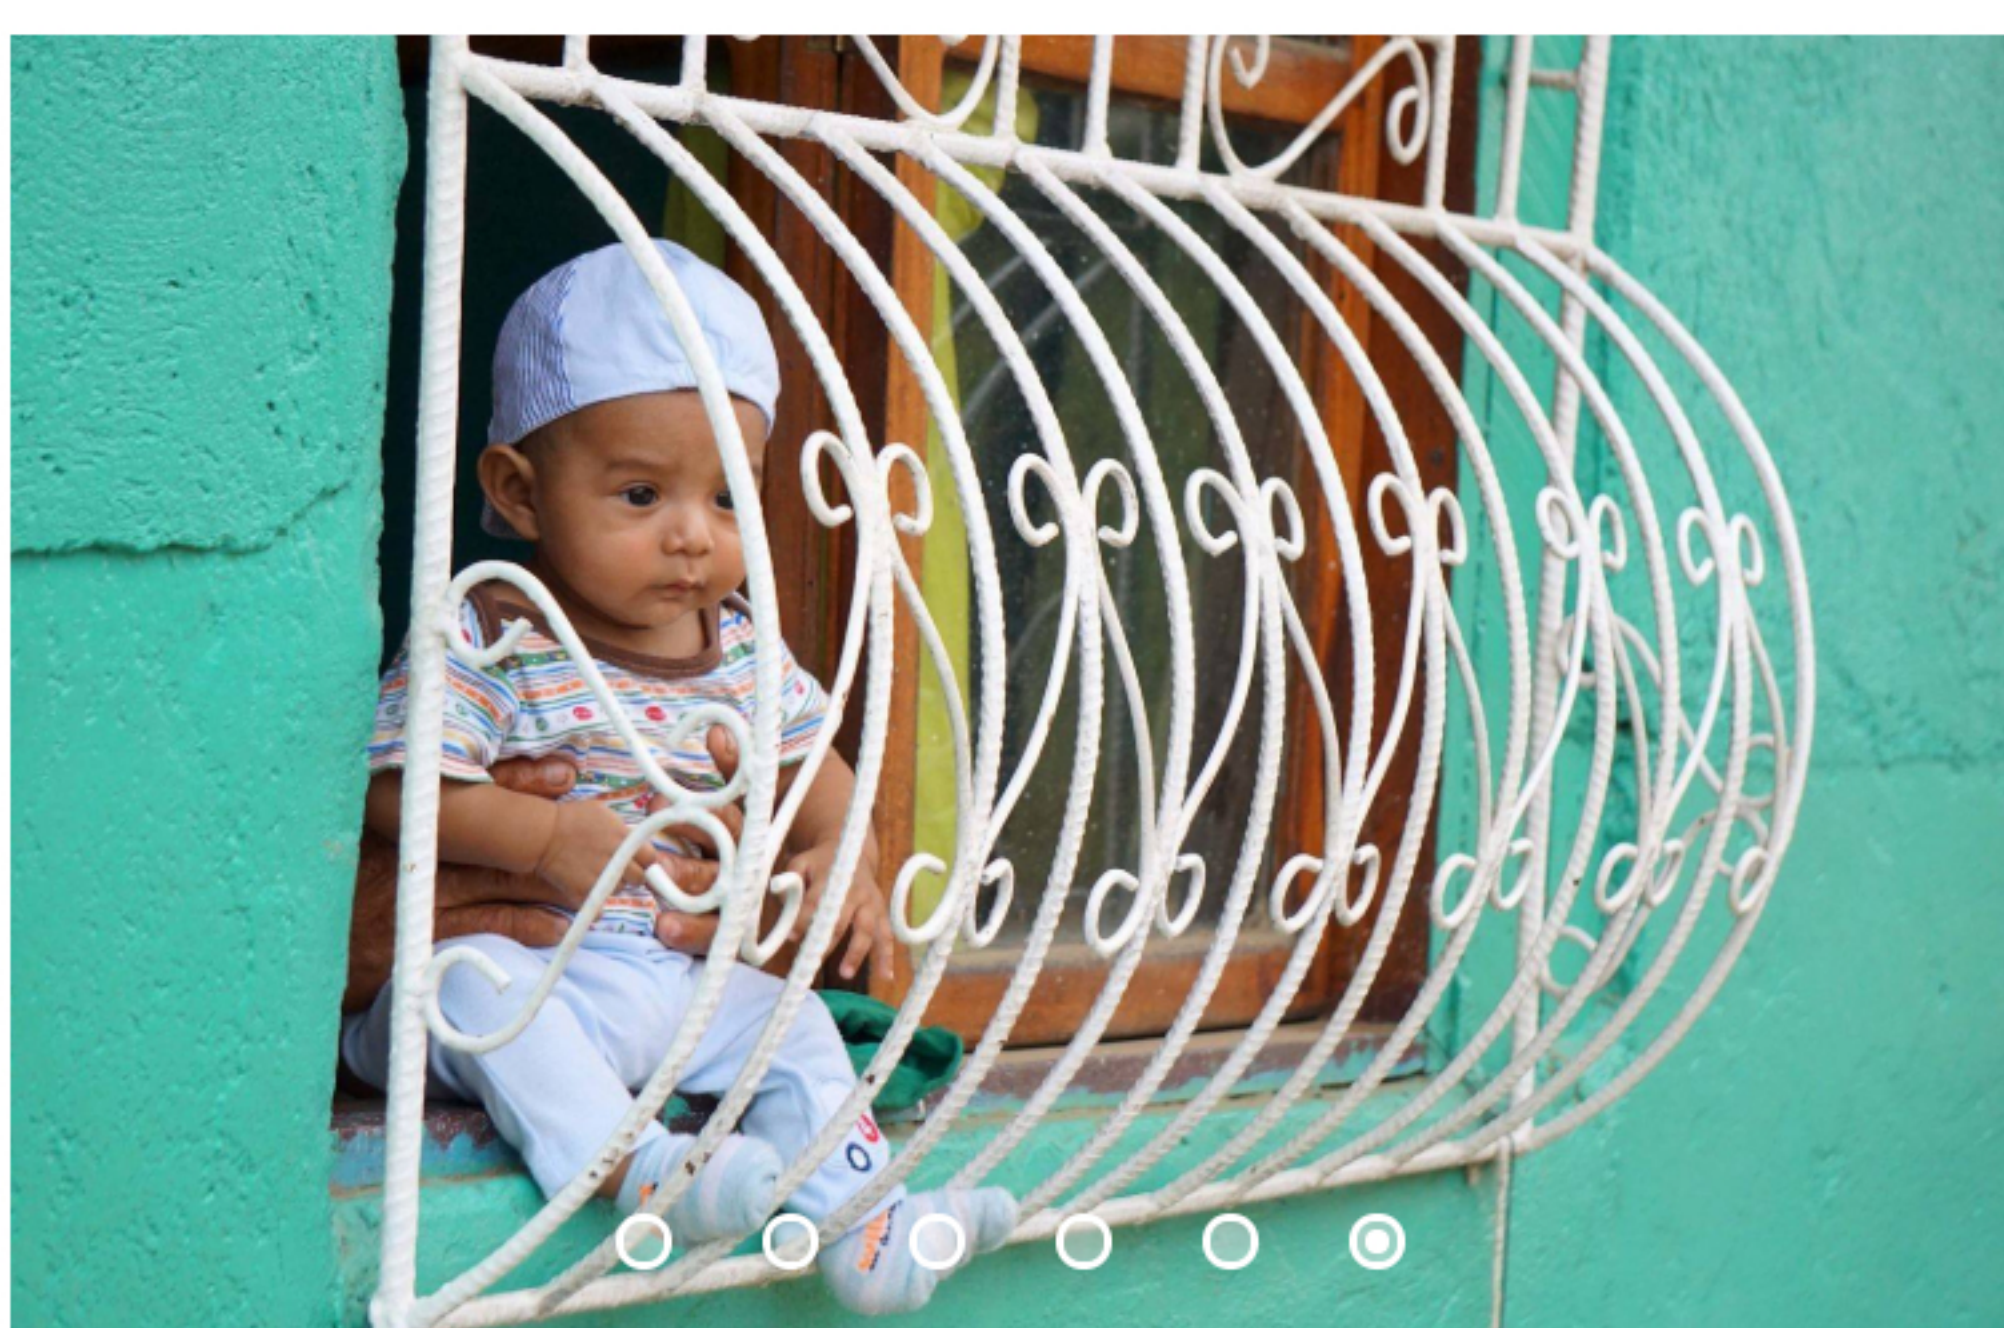

## Art

Garna even produced an arresting art mural, inspired by Megan's genius idea to make a backdrop for a playful costume photo booth for our Music in the Trees event (July 22, 2017). The canvas is now a favorite showpiece among TreeCasa guests.

## Community

In exploring Nicaragua, they featured stories of its diverse regional landscapes, vibrant culture and peoples. They even created content for local businesses, free of charge, in the true spirit of community. We salute these two amazing humans.

### CULINARY

#### Garden to Table

TreeCasa's inaugural guest chef series with French Laundry Alumna Alana Eckhart and San Francisco based restaurateur Deborah Blum.
